Sands's Sarsaparilla.—Loss of appetite, Indigestion, Dyspepsia, Heartburn, Gastritis or Inflammation of the Stomach, all proceed from the same cause, being an unhealthy secretion of gastric juice and bile. The salivary glands no longer send forth a healthy flow, and the liver issues acrid bile. Then follows acidity of the stomach, eructation of wind, distress after eating, oppression at the precordia, bendache and nausea, tremplous sensations, and a variety of other peculiar feelings known only to the sufferer. For these and kindred discases a new remedy has dawned upon the world, having for its object the relief of suffering humanity. Sands's Sarsaparilla, an entirely yegetable composition, is in its operations peculiar, entering into the circulation, thus coming in contact with the germ or cause of disease and displacing unhealthy secretions by extending its influence to every part of the body and causing a general reaction, when health succeeds debility and disease. For certificates of cures, see advertisements in this and other daily papers.

IF Read the following Remarkable Cure performed by RRISTOL'S BARSAPARILLA NEW-YORK, Oct. 29, 1842

Mr. C. O. Bristol-Sir: The motive that prompts me to address these lines to you, arises from a conviction para-mount to that of mere praise of your valuable Sarsaparilla, for if that was my desire I should fail in the attempt, for I feel as though it would require a more powerful pen than mine to do justice to the high claims of so valuable a medi-

dine as Bristol's Sarsaparilla.

It is the obligation I owe as one of the vast family of man to those, like myself, whose misfortune it has been to be afflicted as I have been for several years past, that induces me, without solicitation, to make known to the world what has been an effectual remedy when and where the hope of a cure was almost extinct. I had been informed that you were to visit this city this

I had been informed that you were to visit this city this fall, when I expected to have the pleasure of stating to you what your Saraparilla has done for me, but in this I was disappointed, you having left the city before I knew it; I have therefore taken this method to inform you, and through you, all who may desire to know what my afflictions were and also what has proved an antidote to the same.

I was attacked with Scrofula in a very alarming form about five years since, which spread rapidly throughout my head face and throat internal and external; there were

bead, face and throat, internal and external; there were several holes in the roof of my mouth and about the palate, which was nearly destroyed—my speech and hearing so much affected as to leave but little hope that those senses would ever return to me again as they now are. One of my ears was partly destroyed, my nose and the greater part of my face to all human appearance must meet the

My nerves were dreadfully affected so as to deprive me of rest or sleep that was any thing like natural, but as one frenzied I passed my sleepless nights and wearisome days. My lower extremities were deathly cold and inaninate.—My feet were greatly extended in size from what was called Dropsy, and in addition to this, for many years I was af-flicted with Piles in their most severe and distressing form, which is now removed, together with most of my great afflictions, through the use of your Sarsaparilla alone, after

having the best medical treatment the city afforded.

I am now hearly well—my face has been saved, my mouth and throat healed, my speech and hearing restored, my sight improved, which was very doubtful, my sleep become natural and my appetite good; in a word, I am a different person in feeling and appearance, and there remains not a doubt but that Bristol's Sarsaparilla will effectually accom-plish a thorough and lasting cure of all my afflictions. I am at a loss for language and terms strong enough t speak of your Sarsaparilla as it deserves. It has been to I would proclaim to all the world what Bristol's Sarsapa-rilla has done for me. It will afford me pleasure at any time to inform any person who may desire to know any thing I know of Bristol Sarsaparilla.

Yours respectfully, OPHELIA GORDON.

N. B. I called at the office of the Sun paper this after noon and requested the publication of the above letter for one week, and was refused by the person in charge of the office, who stated that the letter could not be published in the Sun, as others had the preference in such advertise-ments. I enquired the cause of so strange treatment, I hav-ing been a subscriber for the Sun from the first number to the present time; believing, as I did, that I was entitled to the same privilege with others in giving publicity to that which I considered to be my dutyto the community, as well as of great importance to the afflicted, that they night know what to apply as a safe and sure remedy. But I was told that my letter could not go in the Sun at any rate. I was also told that if I would wait three months they might put it in the Sun for me. I then left the office.

War! War! War! Whe Wigmakers have declared hos-tilities against our neighbor, Dr. Jayne, on account of his Hair Tonic, which is knocking all their business into a "cocked hat." Ladies and gentiemen, old and young, are flocking to the Doctor's standard. Heads long divested of even the first rudiments of hair, after using his Hair Tonic, soon appear with new and flowing locks, which Absolam himself might have envied. LT Orlando Fish, Fashionable Hatter, 137 Broad way, would inform the gentlemen of New-York that his Fall and Winter style of Hats is now ready for their inspection and critical judgement. Claiming the distinction of having been the first to project and abide by a strictly AMERICAN style of Hats, instead of servitely copying the Fashions of Europe, which are often unsuited to our climate and manners , he rejoices to perceive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by the leading manufacturers.

He offers a Winter style of Gentlemen's Nutria Hats at

\$3 50, and warrants them equal in material, finish, fashier and durability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are not sold at this price, but at \$4 50. These he recommends as equal to any hat sold in New-York at \$5 or under, and as equal to any fact comparison with any other.
